

A FUTURE FOR MADISON ELEMENTARY COMMUNITY LEARNING CENTER & CENTRAL OFFICE

REVEAL. REFLECT.
VISUALIZE THE FUTURE.

POSITION & SCOPE

The Madison Community Learning Center has been reimagined as a community resource hub offering practical resources and innovative programs to meet the educational, health, social, and behavioral needs of students throughout our community.

With the relocation of Pre-school programming to the Kennedy Elementary Building, the MAPS administrative offices would be relocated to the Madison building. With minor alterations and a plan for needed mechanical updates, Madison will be at full capacity servicing many facets of student support.

- Minor building renovation to create administrative offices
- ADA renovation of toilet rooms
- Replace boiler and relocate A/C from Central Office
- Roof Replacement
