**HOMECOMING RECAP**

Vol 1 Issue1

## **MHS HOMECOMING COMES TO AN END**

*Written by Lauren Judkins*

MHS homecoming has come to an end, and it was a hoot! The class of 2023 won homecoming with juniors in 2nd, sophomores in 3rd, and freshman in 4th.

According to senior **Aubrey Anderson (12)** "I had a blast at homecoming. I did window painting and It was hashtag AWESOME!"

Senior **Nancy Neumann (12)** exclaimed "It was so glamorous, I enjoyed it more than any other day in my life and seeing my friends have so much fun filled me with joy, happiness, and completion". Junior **Nicklaus Judkins (11)** said, "Homecoming isn't my thing, but it was ok. I had a good time". Senior **Dylan Madsen (12)** said "I had a ton of fun. Although, it would have been a lot better if Warnke (The DJ) took her job seriously and played American Boy. I went home and mourned and played song on repeat to fill the void, until I passed out due to exhaustion. Great night!".

## SOCCER RECAP AND WHAT'S NEXT

*Written by Jaz Madsen*

Soccer, one of our many fall sports, is getting ready to wrap up the season as the Boys Varsity team gears up for districts. Before we get to that, here's a quick recap of the JV Boys season as well as our Lady Chips season.

### JV Soccer Ends Season with a 7 game Winning Streak

The JV boys soccer team started their season with a devastating 5 game losing streak, where they "didn't score hardly 1 or 2 points" (**Co-Captain Oliver Holtgren 10**). They were in desperate need for a win, which was exactly what they got. They came back and won the remaining 10 games to finish off their season strong. "We had a rough start, but we pulled through and I'm proud of us" (**Holtgren**). **Great season Chips!**

### Varsity Heads to Districts with 14-3 Season"

Finally, our boys varsity team is getting ready for their first district game Monday (10/17) against Shelby. With a final tally of 14-3, the boys plan to take districts and continue to regionals. "We have a good change to make a deep run this year. It should be a good post season" (**Co-Captain Ben Schlaff 12**). **Good luck Chips!**

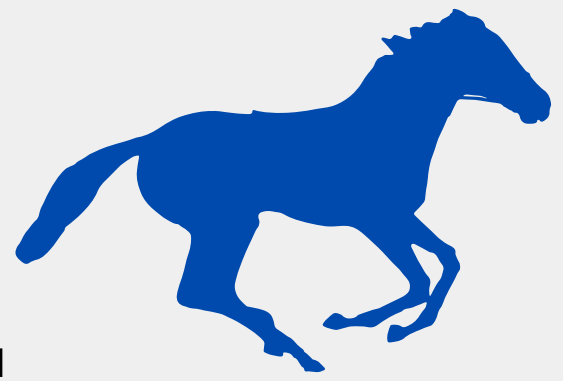

## MANISTEE EQUESTRIAN TEAM DEFENDS STATE CHAMPION TITLE

*Written by Jaz Madsen*

The Manistee Equestrian Team is a member-funded club sport dating back to 2010. The sport is played in meets, just like track. At these meets they are judged on how the rider rides the horse, not the horse it's self. They ride separately and score individual points in each event which are then compiled into a team score.

Starting Thursday morning (10/13), our mighty team of two (**Larissa Edmondson (12)** and **Shayla Tetzlaff (11)**) fought for a second consecutive state title. The meet lasted until Sunday (10/16) for a total of 4 days of competition. Once again, our ladies came out on top with a Reserve State Champion title. "It was a lot of hard work. Countless hours and tears were put into this weekend! We started off rocky but pushed through in the last classes!" (**Tetzlaff**). **Great job ladies!**

# HOW THE JUNIOR'S DOMINATED POWDERPUFF (PT. 2)!!

Written by Ceci Postman

Whether watching or participating, it's difficult to not get wrapped up into the competitive games of Manistee Powderpuff. The four games of flag football are all about having fun, but who doesn't love to win?

The first matchup took place on Monday (10/3) right after school. With most of the coaches at football practice, the girls had to show they could remember and execute plays on their own. With no surprise, given past successes, the Juniors came away with a win over the Freshmen. The second game of the night turned out to be a dangerous competition, however. Sophomore **Audrey Huizinga (10)** ended up with a broken fibula after scoring a touchdown and helping secure an upset over the seniors! We hope she heals thoroughly and quickly.

By Wednesday night (10/5), the stage was set for another round of great games. The seniors finished in third place over the freshmen. The final match was a close one, but the juniors came away with first place over the sophomores.

After winning last year's powderpuff finals with a phenomenal overtime performance it was anticipated that this year's juniors would be the toughest competition. The winning streak was maintained keeping the juniors at the top of the totem pole. However, if you have ever attended the class of 24's powderpuff practices it doesn't seem like much is accomplished besides having a bit of fun.

*So what's the secret to this continued success?*

According to coach Isaiah (**Zay**) **Davis (11)** "What makes [the junior] powderpuff team a force to reckon with are the players' natural talent for the game. Their ability to understand the game, determination, and pure athleticism is sure to make the class of 2024 3-time powderpuff winners." Zay could be right in crediting the girls for the win but player **Libby McCarthy (11)** comments that "[powderpuff] is one of the best parts of the year and it is so fun being coached by Zay and the others. But it would have been more fun if [the juniors] got to beat the seniors again!"

# STUDENT LIFE

## ADVICE FROM A SENIOR : WHY YOU SHOULD GET INVOLVED

*Written by Lauren Judkins*

I remember my first homecoming assembly in 9th grade very well. I walked into the first assembly and sat with my class. As the assembly went on, I poked fun at everything; I laughed at the people who played the games, the music, Mr. Joseph's energy, and the seniors for being so loud and engaged. Fast forward to my Senior year homecoming assembly, and it went very differently. I got with my class before the assembly started to talk about game strategies, set up the music, stood with student council, took pictures for yearbook, and played a game. Guess which assembly I had more fun at?

I'm not saying that everyone has to be on Joseph - level for homecoming... I think the school would explode. BUT, being involved is so much more fun! I get that it is kind of cheesy and funny, but the lamest people at the assemblies are not the ones who cheer and have fun - it's the people who are silent. That doesn't mean you have to play every game and go to every after school activity (window painting, float building, and tire hunt) but I think everyone should try to do at least one. Who knows, maybe you'll love it! I thought I wouldn't like window painting and it was my favorite thing I did all homecoming week my Junior and Senior year.

### APES CLASS TRIP

*Written by Ceci Postman*

On Friday, September 30th, Mr. Postma's AP environmental science class took a trip down the Little Manistee River. The morning got off to a chilly start with one canoe taking a tumble at the first launch. By the end of the day it had warmed up and a good time was had by all! And we can all rest assured the quality water flows through our town after their (somewhat thorough) testing.

### IT'S FALL!!

Written by Avery Vaas

The temperature is dropping as fall creeps into Manistee. The leaves are changing color, pumpkin spice is just about everywhere, and school spirit is in full swing. So, besides homecoming, what can we do with our wonderful autumn? Here's your guide to some fun fall activities in Michigan.

#### DECORATING FOR HALLOWEEN

Spooky season is just around the corner, and many of us are ready for the costumes, candy, and all around fun. Grab some trinkets from your attic or basement (or even run to a store) and get decorating! It's a fun activity for either friends or family, and completely free if you have any pre-existing decor.

#### PICKING AND CARVING PUMPKINS:

Pumpkin stands and patches are opening up just about all over. Grab a ride and a friend and make a day out of it! You may have to go a little further than Manistee, (there are a lot of pumpkin stands popping up on US-31, and in Free Soil and Scottville so get out on a nice day x have some fun. After successfully obtaining your pumpkins you can settle in for some creative carving and seed snacking.

#### BAKING FALL TREATS

Fall sweets are an absolute staple of the season. When the cold wind is blowing there's nothing more comforting than a hot drink and comfort dessert. You can certainly go to Wesco or Meijer and pick up a premade treat (something I myself am certainly not opposed to), but it's much more fun to make your own with friends! Here are some examples of fun fall treats made by Manistee teens-

#### GOING FOR A COLOR TOUR:

Northern Michigan is gorgeous in the fall, as most of us know. But little old Manistee can get a little monotonous. Try to catch a ride (organizing a trip with friends or parents) and get out and about to see the fall colors! A specific trip I would recommend is North up the lakeshore, towards Frankfort. While you're there you can check out the famous Ed Moody, who makes crazy cool carvings of very large pumpkins! Read more about Mr. Moody's claim to fame here- [Frankfort Man Carves 1,300 Pound Pumpkins Each Year](#)
