LET'S TALK ABOUT PLAY

Sorting laundry is a fun and easy way for your child to develop early math and literacy skills! There are many ways to sort clothes at laundry time, whether by color, size, pattern, or material. Your child can be a laundry helper by sorting the whites from darks before putting clothes into the washing machine. When it's time to fold, your child can help by sorting the family's socks. This practical activity helps young children recognize similarities and differences in groups of objects, an essential cognitive skill.
