Manistee Counties

## ART: ABOUT THE PROCESS NOT THE PRODUCT

Join us as we explore art and the importance of the process.

Together we will learn about the process of art, the differences between process and product, the benefits of process art, materials used and how to get started.

We will look at adult driven art compared to child driven art and discuss the importance of allowing children the freedom to express their own individuality.

Participants will receive 2 hours of approved training for Michigan Standards Area: Child Development(1 hour) and Interactions and Guidance (1 hour)
